FEES & FINANCIAL SUPPORT:

As part of our mission, WOLC aims to offer quality education and value for money. We price our course fees as competitively as possible, by cutting costs not quality. We also seek to provide access to education for as wide a range of students as possible.

Our courses consist of individual units or modules with a given number of Guided Learning Hours (GLH). The inclusive course fees cover the teaching costs for all the modules in the course plus course administration, registration, and student support costs. Longer courses and courses with more modules will cost more than shorter courses or courses with fewer modules. We can, however, reduce administrative and other expenses for longer-term costs by spreading them over time.

We can also offer various flexible instalment plans to allow students to spread their payments over the course of their studies. Please contact our admission advisor for a specific course fee.
